PREFACE

Crime in Illinois 1975 is the 7th publication presenting a comprehensive review of the amount and extent of crime in our communities throughout the State. The crime statistical data depicted in this report was officially submitted on a monthly basis by 1017 law enforcement agencies, representing villages, municipalities, counties, colleges, universities, park districts, railroads, hospitals, and transit authorities. Three hundred and forty-one of these law enforcement agencies are very small part-time police agencies who report through the various sheriffs offices. The remaining 676 law enforcement agencies report directly to the Crime Studies Section of the Bureau of Identification, located in Springfield.

Reporting crime statistics was made mandatory by the 76th General Assembly, set forth by the Illinois Revised Statutes, Chapter 38, Section 206-8 quoted below:

206-8. Crime statistics. 8. The Department (of Law Enforcement) shall be a central repository and custodian of crime statistics for the State and it shall have all power incident there to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.

Even though the Program is mandatory by statute, it is administered to provide services to the law enforcement community, public and private agencies and institutions, researchers, planners and the public regarding the analysis of crime as defined by the Illinois Revised Statutes.

Crime statistical data reported each month by law enforcement agencies is reviewed for completeness and computer processed resulting in the production of an array of agency monthly output administrative reports which are sent to the

agencies. Output reports that are forwarded to law enforcement agencies, institutions, investigating commissions, planning agencies, and various Legislative Committees include: Offenses Known to the Police, Offenses Cleared or Cases Solved, Police Disposition of Persons Arrested, Stolen Property Analysis, Age, Sex and Race of Persons Arrested, and many special reports such as Beat Analysis, Residence of Persons Arrested, Manpower Utilization, etc. Any of these reports can be produced at the local, county, and State level and any county arrangement making up a region or district within the State. In addition, these reports are produced monthly, quarterly and annually, providing specific crime trend information for each community and the State as a whole.

The Illinois-Uniform Crime Reporting Program (I-UCR) emphasizes law enforcement administration in the areas of manpower planning and deployment, budgeting, development and evaluation of crime prevention programs and manpower utilization. This problem or service orientation of the I-UCR program aids in obtaining more meaningful crime statistics in the analysis of the amount and extent of crime in our communities and consequently provides the various agencies with quantitative data to develop and evaluate prevention programs.

Since the publication of all of the statistical data is a voluminous and costly undertaking, only a part of the more general information is contained herein. To maintain a cost effective environment, more detail data is available as requested. If you should need additional information for your use, please inform the Criminal Justice Information Services Section of the Illinois Bureau of Identification, 1035 Outer Park Drive West, Springfield, Illinois 62704, telephone number 217-782-7980.

INTRODUCTION

BACKGROUND

The Illinois-Uniform Crime Reporting System (I-UCR) was developed in 1971 and implemented January 1, 1972. Throughout the development phase of the I-UCR Program a large segment of the law enforcement community was involved in finalizing the data collection part of the system, it became apparent after extensive research that the agencies required more comprehensive data than that required for the National Program. Secondly, it was discovered during the development phase that if statistical data was to be meaningful to law enforcement agencies, other functions of criminal justice, the Legislature and investigating commissions, etc., the data should be identified with the criminal code which defines criminal deviant behavior. Thirdly, it was very important to relate crime statistical data to the National Program in order to relate to the Nation as a whole as well as adhering to the National Program's standards. Fourthly and lastly, the law enforcement agencies needed administrative statistics in return for submitting data to the State.

This is the substance upon which the I-UCR System was designed. It was developed to satisfy the above needs of the law enforcement community, planning agencies, the Legislature, education institutions, various commissions and a multitude of criminal justice agencies. Moreover, the development of the Criminal Justice Information System (CJIS) requires that a common language be used for all agencies — a common language that can be identified to the task to be performed. This task is the enforcement of that body of law entitled the Illinois Criminal Law. This means that statistical data that is derived from the criminal justice process is meaningful to all criminal justice agencies. This same data can be easily translated to the National Program. Additionally, the I-UCR system was designed to be compatible with all components of criminal justice, including those agencies at the National level of government in view of the development of the Criminal Justice Information System (CJIS).

In order to accomplish the task of orienting the I-UCR to both the State and National levels, it was only necessary to intercept statistical data prior to the FBI or National UCR system of classification. In the FBI-UCR Manual, each classification of a statistical offense definition describes what state laws generally go into each offense code. For example: Attempted Murder, Aggravated Assault, and Aggravated Battery make up the FBI-UCR Aggravated Assault Classification. The I-UCR system collects Attempted Murder, Aggravated Assault and Aggravated Battery sepa-

ately because these offenses represent State Statutes. The I-UCR system automatically translates these three offenses via the Department of Law Enforcement's Data Processing Center, uniformly into the FBI-UCR offense classification. Consequently, this enables the system to produce both State and National reports that are meaningful to everyone.

The statistical information collected was deepened considerably in comparison with the National Program by including all criminal statutes (excepting a very few) in the offense report such that the codes were uniform for all offenses, police and court dispositions and age, sex and race statistical data. This approach provided a uniform track through the police process, terminating with the prosecution. The expansion of the I-UCR crime codes was mainly suggested by many of our law enforcement agencies to gather and disseminate statistical data in other major categories of crime in addition to the commonly publicized Crime Index.

To satisfy the need for better and more comprehensive statistical data, analysis and compilation, all reports were made monthly, with output to the law enforcement agencies monthly, quarterly and annually in an array of different reports. These same data are summarized at the county levels, various regional planning levels and the State in the same manner. All data is translated into the FBI-UCR Program monthly on computer tapes which are forwarded to the FBI in accordance with conformance criteria established at the National level.

As a service to all law enforcement agencies the I-UCR accommodates 365 service codes other than crime which are optional or non-mandatory. Presently, 891 agencies use these codes, providing them with total activity accountability. For example, in the year 1975, the service code activity average was 62% of the total law enforcement activity, leaving approximately 38% for criminal activity and a few serious vehicle code offenses. These are very important numbers when we are used to looking at the Crime Index only (7 offenses) and relate the index to the number of officers per 1,000 population and consequently police efficiency. What needs to be accomplished is full activity reporting for the general public to better understand the police role in a given community as well as to assist local law enforcement agencies from a police administrative point of view in a uniform manner.

In connection with crime and service activity the agency has an option to enter manhours ex-

pending, by type activity, badge number, case number, beat (sub-jurisdictional area), mobility code of persons arrested (that is, residence out of jurisdiction), and items stolen by any particular offense. With these data the I-UCR Program can produce manhour utilization reports, officer activity, beat analysis by time of day, by type crime, by type property and place being attacked in a multitude of arrangements. These data are in turn used for planning and research, budget accountability, forecasting and substantiation, and manpower determination and deployment, as well as meeting the needs of the State and the standards set by the National Program.

There are two ways in which law enforcement agencies can submit crime statistics. One way is by a fixed format tally method similar to the concept used by the FBI-UCR Group. The second way is by direct case entry. That is, as offenses and arrests occur the agency using the second method simply enters case summary information. Either method of reporting is optional depending upon needs of the particular agency. And if the agency wants to change method of reporting, it may do so at any point in time other than during a particular month.

OFFENSE CLASSIFICATIONS

The Illinois-Uniform Crime Reporting (I-UCR) offense classification structure is similar to the National Program, excepting that State Statutes are used rather than uniform offense definitions. The following is a list of offense classifications and statute reference used for reporting offense and arrest information.

ILLINOIS-UNIFORM CRIME REPORTING OFFENSE CODES

CODE	OFFENSE	STATUTE REFERENCE
HOMICIDE		
0110	Murder	38-9-1
0121	Attempt: Firearm	38-8-4
0122	Attempt: Knife or Cutting Instrum.	38-8-4
0123	Attempt: Other Dangerous Weapons	38-8-4

OFFENSE CLASSIFICATIONS— NATIONAL PROGRAM

The National Program for uniform crime reporting defines seven offenses for offense reporting. These offenses are listed below.

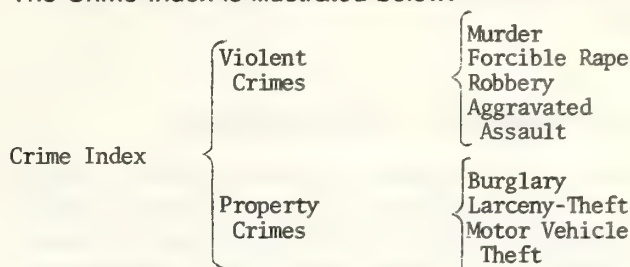

1. Criminal Homicide
 - *a. Murder and Nonnegligent Manslaughter
 - b. Manslaughter by Negligence
- *2. Forcible Rape
 - a. Rape by Force
 - b. Attempts to Commit Forcible Rape
- *3. Robbery
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapons
 - d. Strong-Arm (Hands, Fists, Feet, Etc.)
4. Assault
 - *a. Firearm
 - *b. Knife or Cutting Instrument
 - *c. Other Dangerous Weapon
 - *d. Hands, Fist, Feet, Etc.—Aggravated Injury
 - e. Other Assaults—Simple, Not Aggravated
- *5. Burglary
 - a. Forcible Entry
 - b. Unlawful Entry—No Force
 - c. Attempted Forcible Entry
- *6. Larceny—Theft (Except Motor Vehicle Theft)
- *7. Motor Vehicle Theft
 - a. Autos
 - b. Trucks and Buses
 - c. Other Vehicles

*Indicates an Index Offense by National Definitions

Those offenses that make up the Crime Index are asterisked in the list above. It should be noted that in those categories of offenses that do not contain a sub-category for Attempts, the Attempts are scored as if the crime was completed excepting Murder and Non-negligent Manslaughter. In this case an Attempted Murder is scored as an Assault. In contrast, the I-UCR Program has sub-codes in every category to bring out all Attempts. The reason for not summarizing crime codes is to maintain a statistic of completed as well as incompleting crimes. For example, Motor Vehicle Theft in the National Program includes both completed and incompleting Motor Vehicle Thefts. On the one hand the vehicle was stolen and the owner was deprived of his property. On the other hand an Attempted Vehicle Theft does not deprive the owner of his property nor does it require follow-up investigation to recover the vehicle. The I-UCR Program collects Attempts separately for each crime category, however, when I-UCR data is translated in FBI-UCR format, Attempts are included. The reader should be aware of this when reading Crime Index material.

CRIME INDEX

The Crime Index has been used for many years to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police (IACP), Committee on Uniform Crime Reports. The Crime Index consists of seven offenses which are sub-divided into Violent Crimes or Crimes Against Persons, and Property Crimes or Crimes Against Property. The Crime Index is illustrated below:

The total of all crimes committed in these seven categories is defined as the Crime Index.

The Crime Rate is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\text{Crime Rate} = \frac{\text{Crime Index} \times 100,000}{\text{Jurisdictional Population}}$$

The jurisdictional population can be a city, town, county, state or the Nation.

TRANSLATING I-UCR STATISTICS

It was mentioned before that I-UCR statistical data is translated into the National Program offense classifications. To better understand what you will be reading in this publication, the following illustration should help clarify how state statutes are translated into the National Program's crime index offenses.

I-UCR PROGRAM	NATIONAL PROGRAM
Murder and Voluntary Manslaughter	Murder and Non-negligent Manslaughter
Forcible Rape	Rape by Force
Robbery	Robbery
Attempted Murder	Assault
Aggravated Assault	
Aggravated Battery	
Burglary	Burglary
Theft	Larceny-Theft
Burglary From Motor Vehicle	
Motor Vehicle Theft	Motor Vehicle Theft

It should be understood from the illustration that the Assault category of the National Program contains Attempted Murder, Aggravated Assault and Aggravated Battery. And Burglary From Motor Vehicle is treated as a Larceny-Theft. In this report part of the I-UCR statistical data is translated into the Crime Index for continuity with the National level. In addition, this report contains offense and arrest data in terms of State statutes for continuity throughout the Illinois Criminal Justice System and in particular activity that relates to law enforcement.

INTER-AGENCY COMPARISONS

When making comparisons of crime statistics between jurisdictions, many factors should be considered before drawing any conclusions. Most releases of crime statistics especially the Crime Index show a population or population group relationship which leads one to compare jurisdictions based on population alone and consequently arrive at false conclusions. For example, there are many jurisdictions that have approximately the same population, however, how many jurisdictions with the same population have a race track, or large manufacturing area or mostly residential, or have a large number of hotels and motels? The point is when comparing crime statistics, one must have at least a general understanding of the characteristics of each community to intelligently derive cogent conclusions. Another aspect of crime trends in a particular community is the fact that criminal deviant behavior is a community problem that requires more than the police department to understand and curtail. The law enforcement community can only deal with those factors under its control, whereas, other agencies and institutions must deal with the entire problem in cooperation with law enforcement in conjunction with contributing factors which lead to crime. Some of these factors are listed below:

1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population with reference particularly to age, sex and race.
3. Economic status and mores of the population.

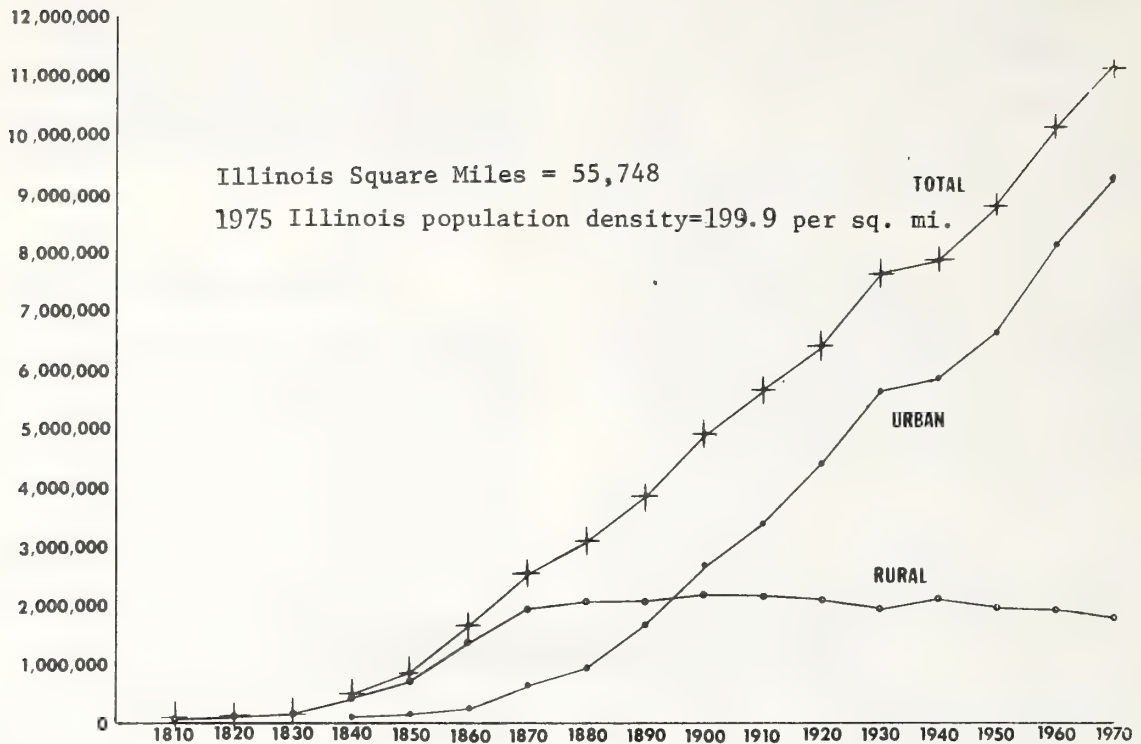

4. Relative stability of population, including commuters, seasonal and other transient types.
5. Climate, including seasonal weather conditions.
6. Education and recreational characteristics.
7. Effective strength of the police force.
8. Standards governing appointments to the police force.
9. Policies of the prosecuting officials and the courts.
10. Attitudes of the public toward law enforcement problems.
11. The administrative and investigative efficiency of the local law enforcement agency, the level of services performed other than combating and preventing crime, and the degree of adherence to crime reporting standards to measure the amount and extent of crime over long periods of time.
12. The degree of inter-agency cooperation in combating crime.
13. Public official's attitudes toward law enforcement, including the law enforcement agency's involvement in the community planning process.

Most of these factors are environmental and should necessarily be considered, however, criminal deviant behavior is complex involving sociological, psychological, biological, pathological, physiological, etc. factors comingled in one degree or another to produce the criminal deviant. And each kind of crime committed is defined differently by statute and hence requires analysis of deviant behavior by definition. For example, one that viciously commits rape has different personality traits perhaps than one who commits theft to meet family needs because he is out of a job.

It is not an easy task to consider all of these factors when reviewing crime statistics, mainly because data isn't readily available to perform such an analysis nor is there a direct correlation presented herein to reflect a more meaningful statistic. In any event, caution should be taken so as not to draw erroneous conclusions based on the population or your jurisdiction alone; consider total community factors in each comparison situation.

STATE SUMMARY

ILLINOIS POPULATION TRENDS 1810-1975

<u>YEAR</u>	<u>URBAN</u>	<u>RURAL</u>	<u>TOTAL</u>	<u>POPULATION DENSITY PER SQUARE MILE</u>

Figure 1

STATE SUMMARY

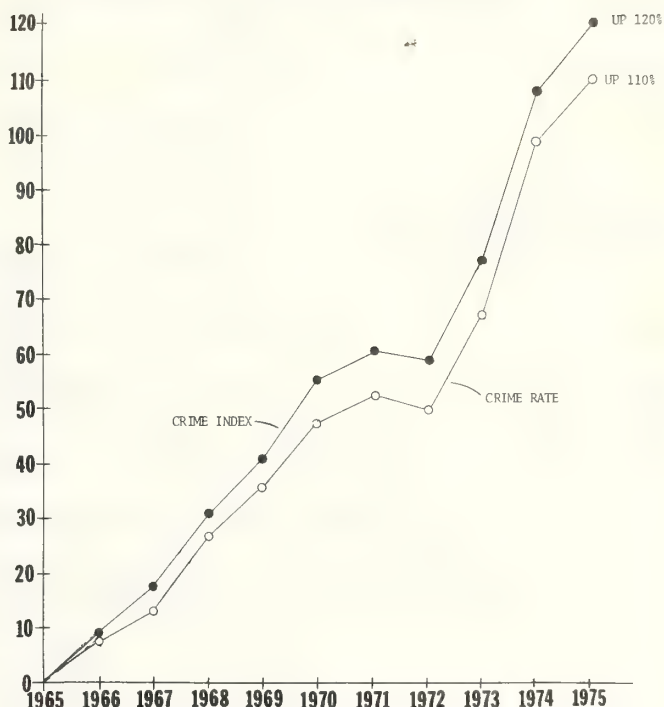

The Crime Index discussed in the introduction consists of seven statistical classifications as defined by the National Program. These are, Murder and Voluntary Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Burglary, Theft/Larceny and Vehicle Theft. Violent Crimes consist of Murder and Voluntary Manslaughter, Forcible Rape, Robbery, and Aggravated Assault. The statistical classifications; Burglary, Theft/Larceny and Vehicle Theft represent the remaining offense classifications of the Crime Index, and are termed Property Crimes. The relationship between the Illinois-Uniform Crime Reporting (I-UCR) offense classifications and the National offense classifications is illustrated below:

	CRIME INDEX OFFENSES		ILLINOIS CLASSIFICATIONS		FBI-UCR CLASSIFICATIONS
VIOLENT CRIMES	{	Murder (Chapter 38-9-1)	}	Voluntary Manslaughter (Chapter 38-9-2)	Murder & Nonnegligent Manslaughter
		Rape (Chapter 38-11-1)		Forcible Rape	
		Robbery (Chapter 38-18-1)	Robbery		
		Armed Robbery (Chapter 38-18-2)	}	Attempted Murder (Chapter 38-8-4)	Aggravated Assault
		Aggravated Assault (Chapter 38-12-2)			
		Aggravated Battery (Chapter 38-12-4)			
		Burglary (Chapter 38-19-1)		Burglary	
PROPERTY CRIMES	{	Burglary From Auto (Chapter 38-16-1)	Theft/Larceny		
		Theft (Chapter 38-16-1)			
		Vehicle Theft (Chapter 38-16-1)	Vehicle Theft		

Crime Index Offenses include attempts to commit these offenses. For example, Attempted Murder is included with the completed offense count of Aggravated Assault and Attempted Vehicle Theft is included in the total Vehicle Theft counts. The discussion and analysis of offenses that occurred in 1975 will include both the National Program and State Program statistics for a better understanding of the Crime Index. The data presented represents offenses known and reported by the 1017 law enforcement agencies in the State; 676 of which report directly to the State and 341 very small agencies that report through the 102 Sheriff offices. During the calendar year 1975 law enforcement agencies reported 595,891 index offenses, representing a 5.5 percent increase over 1974. Violent Crimes accounted for 10.3 percent of the Crime index in 1975, representing a decrease of 11.3 percent over 1974. Property Crimes accounted for 89.7 percent of the Index Offenses, representing an increase of 7.9 percent over 1974. Murder and Voluntary Manslaughter decreased 12.5 percent in 1975 over 1974. Forcible Rape decreased 6.1 percent. Robbery decreased 12.2 percent and Aggravated Assault (Attempted Murder, Aggravated Battery, Aggravated Assault) de-

creased 13.9 percent. Burglary increased 3.3 percent in 1975 over 1974. Theft increased 12.2 percent and Motor Vehicle Theft decreased 3.3 percent. In summary, the total of offenses increased in 1975 by 5.5 percent. The State Crime Rate (number of index offenses per 100,000 inhabitants) for 1975 was 5,346.7 an increase of 5.4 percent over 1974. Table 1 presents Crime Index offenses and rates for 1975 and 1974.

Chart 1

1974	11,131,000	+ 4.6	564,569	+108.3	5,072.0	+ 99.2
1975	11,145,000	+ 4.7	595,891	+119.9	5,346.7	+110.0

Crime Rate=Crime Index per 100,000 population.

CRIME INDEX=MURDER & VOLUNTARY MANSLAUGHTER, FORCIBLE RAPE, ROBBERY, AGGRAVATED ASSAULT-BATTERY & ATTEMPTED MURDER, BURGLARY, THEFT & MOTOR VEHICLE THEFT

Note: As of January 1, 1973 the theft category was changed to include all thefts regardless of dollar value. Therefore the theft offenses from 1965 - 1972 have been adjusted to include all theft (both under \$50, over \$50 and attempts).

The largest decrease in Violent Crimes was Aggravated Assault and Battery representing a decrease of 13.9 percent. Theft was highest in Property Crimes representing 12.2 percent and accounted for the highest increase in all Index Crimes for 1975 over 1974.

Chart 1 depicts the Total Crime Index Trend beginning with 1965 through 1975. The Chart indicates that the Crime Index is up 119.9 percent over 1965 and the Crime Rate is up 110.0 percent. The table below the graph represents the data from which the points on the graph were plotted.

Table 1—CRIME INDEX—1975

CRIME INDEX ARRESTS

There were 125,001 persons arrested for Index Crimes in 1975. Males represented 103,105 arrests or 82.5 percent of the total persons arrested. Females accounted for 21,896 persons arrested or 17.5 percent. Whites accounted for 58,064 persons arrested, 46.5 percent, Negroes 59,759 or 47.8 percent, and all other races 7,178 or 5.7 percent. Juveniles accounted for 48,057 persons arrested or 38.4 percent of the total arrests made for Crime Index offenses. Adults accounted for 76,944 persons arrested or 61.6 percent. Tables 2 and 3 provide detail information regarding persons arrested for Index offenses in 1975 and 1974.

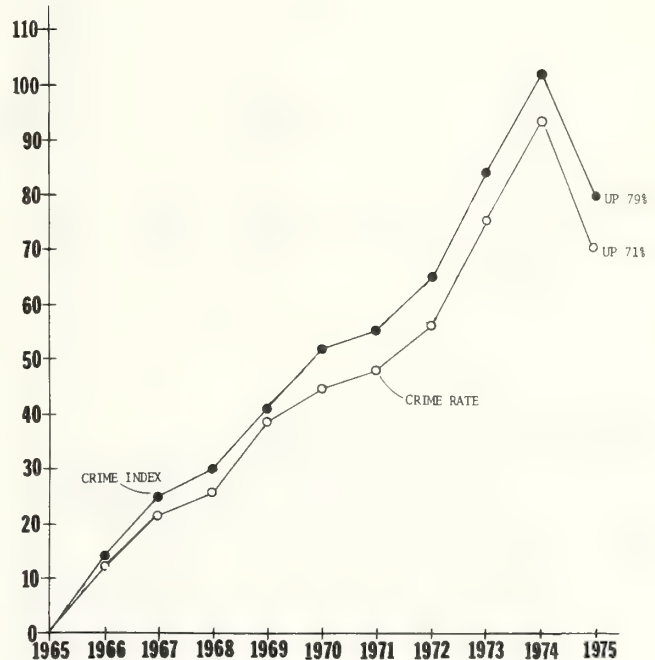

CRIMES AGAINST PERSONS

Crime Against Persons consist of Murder and Voluntary Manslaughter, Rape, Robbery, Aggravated Assault, Aggravated Battery and Attempted Murder. The total Violent Crimes that occurred in 1975 was 61,501. Chart 2 depicts the long term trend and specific data of violent crimes beginning with the year 1965. Violent Crimes were up 79.1 percent in 1975 over the base year 1965 representing a 11.3 percent decrease over 1974.

VIOLENT CRIME ARRESTS

Arrests made for offenses within the Crimes Against Persons or Violent Crime category represented 24,304 or 19.4 percent of all arrests made for Index offenses in 1975. Males accounted for 22,316 arrests for Violent Crimes or 91.8 percent, and Females accounted for 1,988 arrests or 8.2 percent. Whites accounted for 7,897 persons arrested for violent crimes, 32.5 percent, Negroes 14,755 or 60.7 percent, and all other races represented 1,652 or 6.8 percent. Juveniles accounted for 6,169 persons arrested, or 25.4 percent and adults 18,135 or 74.6 percent. Tables 4 and 5 provide a detailed breakdown of persons arrested for Crimes Against Persons in 1975 and 1974.

**Chart 2

MURDER AND VOLUNTARY MANSLAUGHTER

Murder is defined in the Illinois Revised Statutes-1974, Chapter 38, Section 9-1, as follows:

9-1. § 9-1. Murder. A person who kills an individual without lawful justification commits murder if, in performing the acts which cause the death:

- (1) He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or
- (2) He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or
- (3) He is attempting or committing a forcible felony other than voluntary manslaughter.

Voluntary Manslaughter is defined as follows:

9-2. § 9-2. Voluntary Manslaughter. A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden intense passion resulting from serious provocation by:

- (1) The individual killed, or
- (2) Another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed.

Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.

The Crime Index offenses for Murder and Voluntary Manslaughter are merged in accordance with the National Program definition and are based on police investigation. Law enforcement agencies reported 1,156 Murders and 16 Voluntary Manslaughters in 1975.

The long term trend of Murder and Voluntary Manslaughter is illustrated in Chart 2.1. The offenses increased 112.7 in 1975 over 1965 and a 12.5 decrease over 1974. A detail analysis of these crimes indicates that Murder and Voluntary Manslaughter is difficult to prevent by law enforcement alone, since the majority of these offenses are committed by persons known to the victim. Table 6 displays incidents of Murder and Voluntary Manslaughter by month of occurrence, comparing 1975 with 1974. The right side of the table is partitioned into three categories of victim-offender relationships.

Type I, the victim and offender are within the family which accounted for 187 offenses in 1974 and 194 in 1975, representing increase of 3.7 percent in 1975 over 1974. Type I Murders and Voluntary Manslaughters represent 16.5 percent of the total offenses committed, in this crime category. Type II victim-offender relationship, the victim and offender were acquainted prior to the offense occurring, representing 593 cases in 1974 and 514 cases in 1975 for a decrease of 13.3 percent in 1975 over 1974.

Type I and Type II together accounted for 780 cases or 59.2 percent of the total offenses committed in 1974, and in 1975 these two categories consisting of the victim and offender knowing each other, accounted for 708 cases reported or 60.4 percent of the total Murders and Voluntary Manslaughters committed.

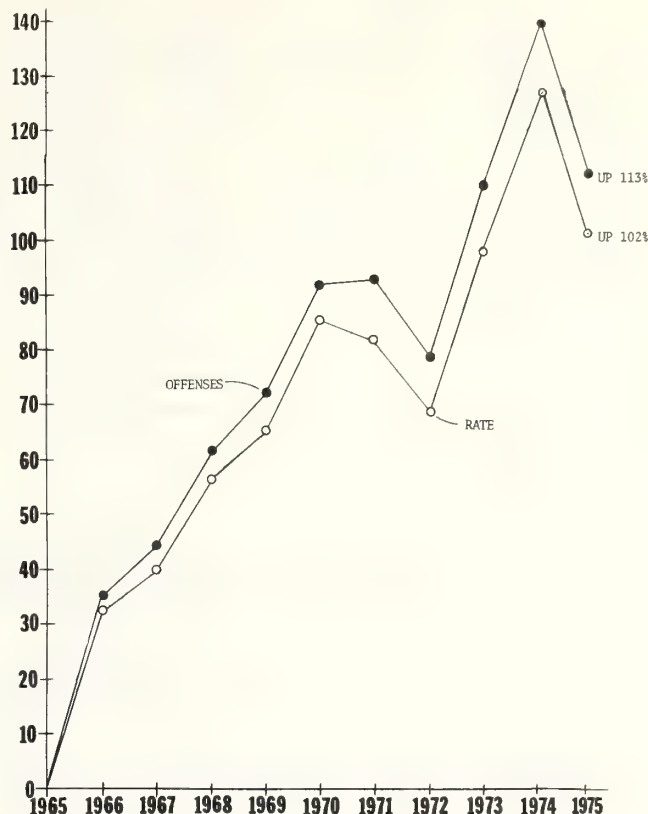

Type III, the offender and victim are unknown to each other represented approximately 39.6 percent of the cases reported. There were 539 cases of Murder and Voluntary Manslaughter in 1974 and 464 cases in 1975, accounting for a 13.9 percent decrease in 1975 over 1974.

Table 7 Murder and Voluntary Manslaughter, Victim's, Sex and Race; provides an analysis of victim's, sex and race by month of occurrence. Male victims represent approximately 78.5 percent of the cases and females represented approximately 21.5 percent. Male victims decreased 11.8 percent in 1975 over 1974, and Females decreased 8.7 percent over the same period. White victims accounted for 37.1 percent of the cases in 1975. Black victims represented 60.9 percent.

An analysis of Murder and Voluntary Manslaughter by type weapon used in committing the crime is presented in Table 8. The use of handguns to commit Murder and Voluntary Manslaughter remains the most frequent type weapon used. In 1974, 60.7 percent of the offenses committed involved a handgun, and in 1975, 54.3 percent of the cases involved the same type weapon. Incidents involving a knife as the murder weapon decreased from 17.1 percent of the total cases in 1974 to 16.4 percent in 1975. The use of a club which includes any blunt instrument, increased from 5.8 percent of the cases in 1974 to 6.3 percent in 1975. The use of hands, fists, feet or any other part of the body used in the crime increased from 3.5 percent in 1974 to 5.3 percent of the total cases in 1975. All other type weapons or instruments accounted for 3.4 percent of the cases in 1975.

Handguns, rifles and shotguns together accounted for 905 of the offenses in 1974 or 68.6 percent, and in 1975 the use of these firearms accounted for 756 cases representing 64.5 percent of the total Murders and Voluntary Manslaughters.

RAPE

The crime of rape is defined in Chapter 38, Section 11-1 of the Illinois Revised Statutes-1974. Paragraph (a) (2) is a deviation for the National Program definition and is accommodated by a subcategory of other sex offenses. The Section reads as follows:

11-1. § 11-1. Rape. (a) A male person of the age of 14 years and upwards who has sexual intercourse with a female, not his wife, by force and against her will, commits rape. Intercourse by force and against her will includes, but is not limited to, any intercourse which occurs in the following situations:

- (1) Where the female is unconscious; or
 - (2) Where the female is so mentally deranged or deficient that she cannot give effective consent to intercourse.
- (b) Sexual intercourse occurs when there is any penetration of the female sex organ by the male sex organ.

There were 2,867 Rapes in 1975. Rapes accounted for 0.5 percent of the Crime Index and 4.7 percent of the Crimes Against Persons category. Rape offenses decreased by 6.1 percent in 1975 over 1974. The Crime Rate for Rape was 25.7 per 100,000 inhabitants representing a decrease in Crime Rate of 6.2 percent in 1975 over 1974.

MURDER AND VOLUNTARY MANSLAUGHTER ARRESTS

The total persons arrested for Murder and Voluntary Manslaughter in 1975 was 1,505. Males represented 1,329 or 88.3 percent of the arrests and Females 176 or 11.7 percent of the arrests. Whites accounted for 262 or 17.4 percent and Blacks or Negroes accounted for 1,093 or 72.6 percent of the total arrests. Table 9 and 10 provide additional statistical data of persons arrested for this offense for 1975 and 1974 for comparison purposes.

RAPE ARRESTS

Tables 11 and 12 display detailed statistics of persons arrested for Rape. In 1975, Table 11 shows that 1,244 persons were arrested for Rape, and in 1974 there were 1,227 arrests representing an increase in arrests of 1.4 percent. Adults accounted for 1055 arrests in 1975 or 84.8 percent, and Juveniles represented 189 arrests or 15.2 percent of the total arrests made.

AGGRAVATED ASSAULT AGGRAVATED BATTERY ATTEMPTED MURDER

These three offenses make up the Aggravated Assault category of the National Program. These offenses are defined in the Illinois Revised Statutes, 1974, Chapter 38, as follows:

12.2 Aggravated Assault. A person commits an aggravated assault, when, in committing an assault, he:

- (1) Uses a deadly weapon.

Other sub-paragraphs of this statute are accounted for in the I-UCR Program under a sub-category in order to be consistent with the National Program. The intent here is to threaten great bodily harm both at the State and National level regarding Index Crimes. Aggravated Battery is the furtherance of the Assault whereby physical contact is made resulting in great bodily harm. Aggravated Battery is defined in the Illinois Statutes, Chapter 38, as:

12.4. Aggravated Battery. (a) A person who, in committing a battery, intentionally or knowingly causes great bodily harm, or permanent disability or disfigurement commits aggravated battery.

- (b) Uses a deadly weapon.

- (c) A person who administers to an individual or causes him to take, without his consent

or by threat or deception, and for other than medical purposes, any intoxicating, poisonous, stupefying, narcotic or anesthetic substance commits aggravated battery.

All other sub-paragraphs in this Statute are included in other sub-codes of the Illinois-Uniform Crime Reporting Program to maintain consistency with the National Program.

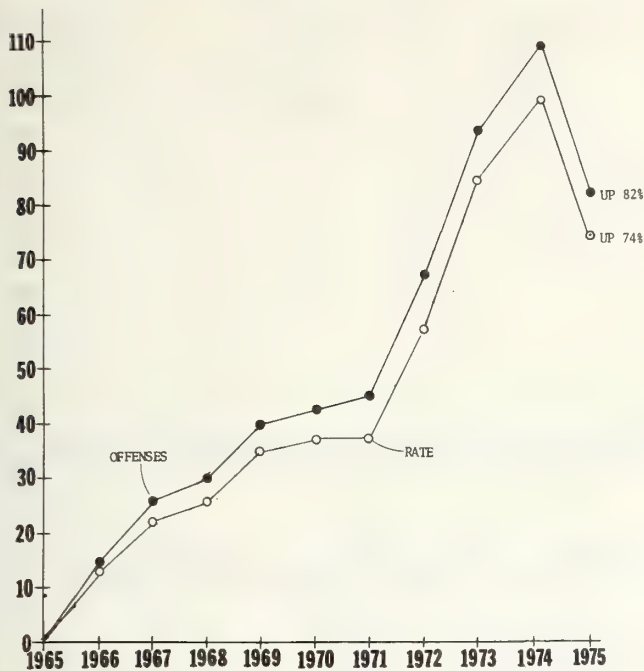

Attempted Murder is defined the same as Murder excepting that the offense wasn't completed but the intention was by his acts to complete the offense, which is covered in the Illinois Revised Statutes, 1974, Chapter 38, Section 8-4.

It is important for the reader to understand that when reading statistics published by the National Program that the Crime Index category, Aggravated Assault, includes the above State Statutes. Statistics relating directly to each State Statute of the Criminal Law of Illinois can be found elsewhere in this report. See the Table of Contents, Offense Summary.

The three offenses defined above which are included in the Aggravated Assault category of the National Program, accounted for 26,543 offenses in 1975, representing 13.9 percent decrease over 1974. This category of the Crime Index and represented 43.2 percent of the Violent Crimes.

The Crime Rate for Aggravated Assault (Aggravated Assault, Aggravated Battery, and Attempted

Chart 2.3
AGGRAVATED ASSAULT BATTERY
AND ATTEMPTED MURDER
PERCENT CHANGE FROM
1965-1975

Murder) was 238.2 offenses or victims per 100,000 inhabitants in 1975, representing a decrease of 12.3 percent over 1974.

Table 13 shows the type weapon used in committing Attempted Murder, Aggravated Battery and Aggravated Assault. Firearms were used in 7,135 or 26.9 percent of the incidents; a knife or cutting instrument was used in 7,611 or 28.7 percent of the offenses; other dangerous weapons (Club, rope, iron bar, pipe, etc.) were used in 6,336 or 23.8 percent of the crimes; and hands, fist, feet, etc., were used in 5,464 or 20.6 percent of the cases in 1975.

The volume of offenses in 1975 was 26,543 and in 1974 the volume was 30,230 offenses representing a decrease in volume of 3,687 or 13.9 percent in 1975, and a 74.3 percent increase over 1965 as illustrated in Chart 2.3.

AGGRAVATED ASSAULT, AGGRAVATED BATTERY AND ATTEMPTED MURDER ARRESTS

Persons arrested for Aggravated Assault, Aggravated Battery and Attempted Murder amounted to 10,436 in 1975 and 11,947 in 1974, representing a decrease of 12.6 percent. Adults accounted for 8,420 or 80.7 percent of the total persons arrested, and Juveniles made up 2,016 or 19.3 percent of the arrests in 1975 for these offenses. Males represented 88.2 percent of the arrests and Females accounted for 11.8 percent of the arrests. Whites represented 5,229 arrests or 50.1 percent; Blacks or Negroes accounted for 43.0 or 4,487 arrests. Arrests were distributed among the other races shown in Table 14. Table 15 provides the arrest data for 1974 for comparison purposes.

ROBBERY

Robbery is usually included in the Property Offense sub-category of the Crime Index. However, Robbery by definition includes assault and/or battery with the intent to deprive the person of property or commit a theft. It is considered in the Illinois-UCR Program as a Violent Crime Against Persons. The State Statute is quoted below from Chapter 38 of the Illinois Revised Statutes-1974:

18-1. Robbery. (a) A person commits robbery when he takes property from the person or presence of another by the use of force or by threatening the imminent use of force.

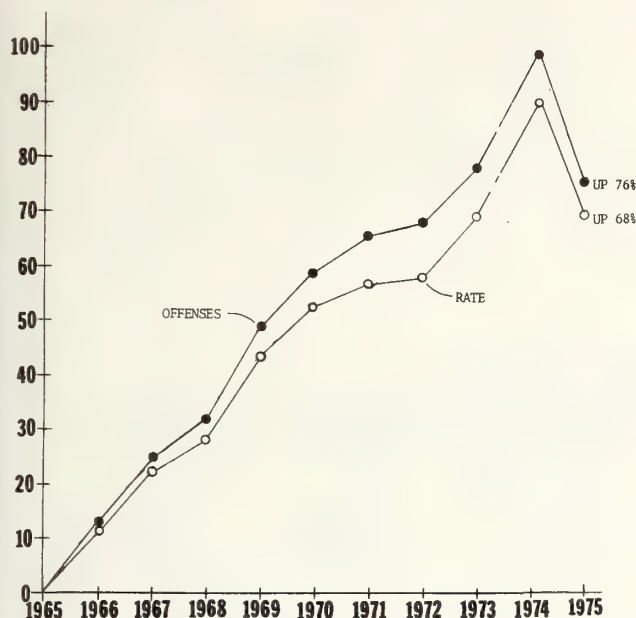

18-2. Armed Robbery. (a) A person commits armed robbery when he violates Section 18-1 while armed with a dangerous weapon.

From the definition of Robbery one can conclude that an Assault or Battery, both of which can be Aggravated is committed concurrently with the intent to deprive a person of his property. For example; if a person points a gun at an individual with a threat to do great bodily harm which is

present by the display of the gun it could be termed an Aggravated Battery. However, if the offender takes property from the person it is Armed Robbery. Likewise, if an individual grabs a purse it could be considered a common theft called purse-snatching. However, if the individual strikes you with his fist or any other weapon intended to produce force, it is a Robbery. As a result Robbery is more importantly classified as a Violent Crime or Crime Against Persons than being classified as a Property Crime. Obtaining property is the intent of the offense.

There were 30,919 Robberies in 1975 representing a decrease of 12.2 percent over 1974. Robbery accounts for 50.3 percent of the Crimes Against Persons and 5.2 percent of the Crime Index. The Crime Rate of Robbery was 277.4 offenses per 100,000 inhabitants representing a decrease of 11.0 percent over 1974. Chart 2.4 shows the ten year trend for Robbery, indicating that offenses were up 76.3 percent and the Crime Rate was up 68.3 percent over 1965 which is considered the

Crime Rate = Crime Index per 100,000 population.

base year for computation. Specific statistical data is presented in Chart 2.4.

Table 16 provides a detailed breakdown of Robbery by type weapon used and those Robberies that were committed by using a certain degree of force called strong-armed robbery.

Accordingly, there were 19,371 Armed Robberies in 1975 which represented 62.7 percent of the total robberies committed, not considering the 487 Attempts to commit Armed Robbery.

ROBBERY ARRESTS

Tables 17 and 18 display detailed data of persons arrested for Robbery in 1975 and 1974. There were 11,119 persons arrested in 1975, for Robbery and 11,132 persons arrested in 1974, representing 0.1 percent decrease in 1975 over 1974. Males accounted for 10,539 out of the 11,119 arrests in 1975, representing 94.8 percent of the total. Juveniles represented 3,801 or 34.2 percent of the 1975 arrests and Adults made up 7,318 or 65.8 percent. Whites accounted for 2,089 or 18.8 percent and Blacks or Negroes represented 8,320 or 74.8 percent of the arrests, while the remaining arrests were distributed among other races.

Property involved in committing Robbery amounted to \$5,553,219 in 1975. Out of the total value of property stolen, \$1,703,405 worth of property was recovered, and \$93,925 in property was destroyed. Table 19 provides an analysis of Robbery by Place or location of occurrence. The total offenses reported indicates 29,719 which is 1,200 offenses less than the Crime Index shows. The difference of 1,200 is made up of 966 offenses which were attempts and are not included. The remaining 234 offenses were not reported by law enforcement agencies for one reason or another, with respect to the property stolen, however, the offenses were reported as an offense only without property analysis. In looking at the Table, Robbery occurrences on thoroughfares is highest at 51.0 percent of the total, followed by private residences and business places.

CRIMES AGAINST PROPERTY

Included in this sub-category of the Crime Index is Burglary, Theft and Auto Theft. The National Program includes Robbery as mentioned previously. In addition to these three property crimes, Arson and Vandalism will be considered separately in this section to avoid confusion between Index crimes and other crimes that are on the State Program.

Property crimes amounted to 534,390 incidents in 1975 compared to 495,266 in 1974, amounting to an increase of 39,124 offenses a 7.9 percent increase. The Crime Rate for Crimes Against Property was 4,794.9 a 7.8 percent increase. Property crimes accounted for 89.7 percent of the Crime Index offenses in 1975 and 87.7 percent in 1974, indicating only a slight increase in volume relative to the Index itself.

The total value of property stolen was \$190,348,328 in 1975 for these three offenses, compared to \$170,243,245 in 1974, amounting to an increase of 11.8 percent in 1975 over 1974. Property recovered amounted to \$57,140,660 in 1975, accounting for 30.0 percent of the property stolen. In 1974, property value recovered was \$58,167,181 representing 34.2 percent of the total property taken. Table 20 displays a summary of property offenses as related to the type crime and value of property.

Chart 3, depicts the long-range trend of Crimes against Property. The Crimes against property offenses are up 125.8 percent over 1965 and the Crime Rate for property crimes is up 115.7 percent over 1965.

CRIMES AGAINST PROPERTY ARRESTS

In 1975 there were 100,697 persons arrested for Crimes Against Property and 93,887 arrested in 1974, representing an increase of 7.3 percent in 1975, compared to 1974. Male arrestees accounted for 80,789 arrests in 1975, or 80.2 percent of the total persons arrested. Females accounted for 19,908 arrests or 19.8 percent in 1975. Juveniles made up 41,888 arrests or 41.6 percent and Adults accounted for 58,809 arrests for 58.4 percent.

It is known that whether the crime is serious or not juvenile statistics are not necessarily reported because such statistics are "sensitive." However, one can't begin solving a problem if the problem is not portrayed in perspective regarding the amount and extent of offenses committed by Juveniles. Therefore, the statistics reported here for 1975 are understated for the Juvenile category of arrests. Concerning race statistics, Whites accounted for 50,167 persons arrested in 1975 or 49.8 percent, Blacks or Negroes accounted for 45,004 arrests or 44.7 percent of the total arrests made for Crimes Against Property, and the remaining arrests were distributed among the other races as indicated in Tables 21 and 22.

Crime Rate = Crime Index per 100,000 population.

CRIMES AGAINST PROPERTY = BURGLARY, THEFT & MOTOR VEHICLE THEFT

NOTE: As of January 1, 1973 the theft category was changed to include all thefts regardless of dollar value. Therefore the theft offenses from 1965 - 1972 have been adjusted to include all theft (both under \$50, over \$50 and attempts).

BURGLARY

The crime of Burglary is defined in the Illinois Revised Statutes-1974, Chapter 38, Section 19-1, as:

19-1. § Burglary. A person commits burglary when without authority he knowingly enters or without authority remains within a building, housetrailer, watercraft, aircraft, motor vehicle as defined in The Illinois Vehicle Code, railroad car, or any part thereof, with intent to commit therein a felony or theft.

The National Program does not include in its definition of Burglary, Burglary from Vehicles, such as, autos, trucks, trailers, aircraft; etc., and in order to be consistent with the National Program this Statute had to be divided between Burglary from Building or Structure and Burglary from Vehicle in order to collect and disseminate statistics by State Law. The I-UCR Program has two categories of Burglary; viz., Burglary from Vehicle and Burglary. The Burglary from Vehicle is treated as a Theft on National level in the Index Crime called Theft/Larceny. Therefore, when reviewing the Crime Index one should understand what type of offenses defined by State law make up the various categories of the Crime Index.

Burglaries (not including Burglary from Vehicle) accounted for 143,370 offenses in 1975, representing an increase in volume of 4,600 offenses over 1974 or an increase of 3.3 percent. Chart 3.1 shows the long-term trend beginning with 1965 as the base year. The number of offenses increased by 144.8 percent over 1965 and the Crime Rate for Burglary increased by 133.7 percent over the same period of time.

The clearance rate (number of crimes solved/total crimes occurred) for Burglary in 1975 was 16.5 percent. This low figure, of course, is not satisfactory to the law enforcement community. Burglary requires concentrated effort within each community to develop programs that will severely reduce and prevent burglaries from occurring. The Illinois-Uniform Crime Reporting Program is assisting law enforcement agencies through the analysis of this and other crimes in terms of beat analysis, time of day of occurrence, analysis of persons arrested and residency, stolen property and location analysis; etc.

BURGLARY ARRESTS

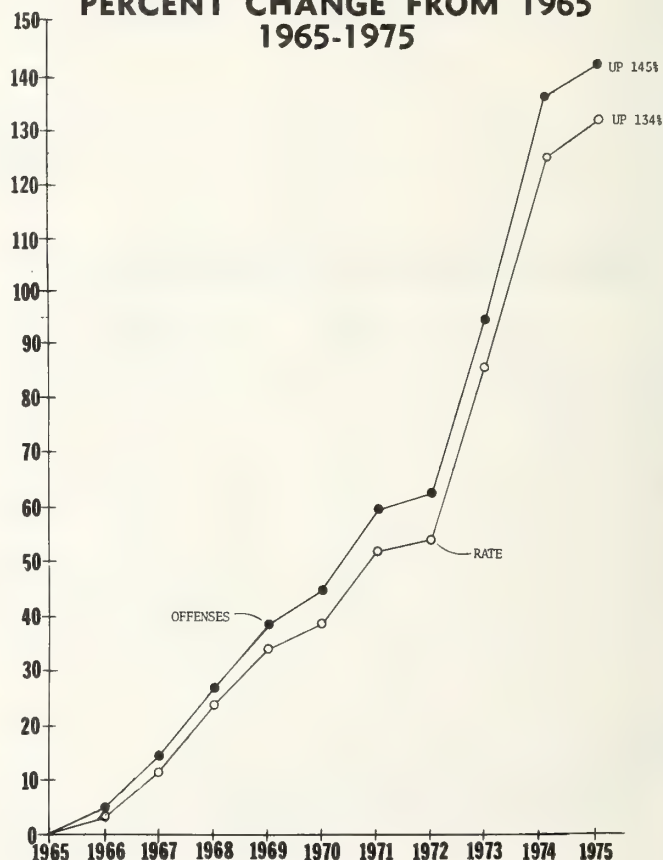

In 1975, there were 23,384 persons arrested for Burglary and 22,512 persons arrested in 1974, representing an increase of 3.9 percent. Males represented 96.4 percent of the persons arrested in 1975, and Females accounted for 3.6 percent. Table 23 also shows that Adults represented 54.9 percent of the persons arrested for Burglary in 1975 and Juveniles made up 45.1 percent. Juvenile arrests for Burglary increased by 13.3 percent in 1975 over 1974. (See Table 24) The race distribution showed Whites accounting for 11,945 arrestees or 51.1 percent, Blacks or Negroes made up 9,900 persons arrested or 42.3 percent, while the remaining 6.6 percent was distributed among all other races, as Table 23 indicates.

STOLEN AND RECOVERED PROPERTY—BURGLARY

In 1975, Burglary accounted for \$59,620,005 worth of stolen property, representing an increase over 1974 of \$4,329,531 or 7.8 percent. Recovered property amounted to \$3,402,558 in 1975.

Table 25 displays places where burglaries occurred in 1975, by time of day and percent distribution. The total burglaries that occurred in residences represented 53.7 percent of 70,531 incidences. Day time burglary from residence occurred 47.0 percent of the time, Night time burglary from residence occurred 37.8 percent of the time and 15.2 percent were unknown; i.e., the person was away from home and upon discovery of missing property or a forcible entry the victim could not tell investigating officers when the crime occurred. However, what is noteworthy is the high percent of Day time burglaries of residences. This simply means that persons committing these acts are aware that occupants are at work, on vacation, out of town, etc. This situation in turn raises the question how to prevent burglaries; i.e., what can the home owner or occupant do in cooperation with the police to prevent residential burglaries.

Type property stolen, recovered or destroyed related to Burglary is presented in Table 26. Jewelry ranked highest in property value stolen, followed by currency.

BURGLARY FROM MOTOR VEHICLE

It was mentioned previously that the National Program requires that burglaries from vehicles be recorded as a theft. However, our State Statutes do not permit this. To accommodate both the State and National requirements, a separate offense code is used to record these offenses. Translation of State data into the National Program crime definitions require merging Burglary From Motor Vehicle into the Theft category of the Crime Index. Therefore, when reviewing Index data, it should be remembered that Index Crimes do not necessarily relate to Illinois Criminal Law as was mentioned previously under Aggravated Assault. Consequently, data related to Theft as defined by the National Program will have burglary from motor vehicle data included. However, a separate analysis of this specific crime will be presented in the following section.

THEFT

Theft is defined in the Illinois Criminal Code, Chapter 38, Section 16-1 as:

16-1. Theft. A person commits theft when he knowingly:

- (a) Obtains or exerts unauthorized control over property of the owners; or
- (b) Obtains by deception control over property of the owner; or
- (c) Obtains by threat control over property of the owner; or
- (d) Obtains control over stolen property knowing the property to have been stolen by another or under such circumstances as would reasonably induce him to believe that the property was stolen, and
 - (1) Intends to deprive the owner permanently of the use or benefit of the property; or
 - (2) Knowingly uses, conceals or abandons the property in such manner as to deprive the owner permanently of such use or benefit; or
 - (3) Uses, conceals, or abandons the property knowing such use, concealment or abandonment probably will deprive the owner permanently of such use or benefit.

Included in the figures that follow is burglary from motor vehicle which will be treated separately within this section.

The number of Thefts that occurred in 1975 was 334,255 representing 56.1 percent of the Index

NOTE - (R E P O R T D O E S N O T I N C L U D E A T T E M P T S)

Crimes and 62.5 percent of Crimes Against Property. Theft increased 12.2 percent over 1974, causing a corresponding increase in the Theft Crime Rate of 1975 amounting to 2,999.1 offenses per 100,000 inhabitants or 12.2 percent increase over 1974.

The total offenses that were cleared (solved) amounted to 70,828 giving a Clearance Rate of 21.2 percent.

**Chart 3.2

1973	11,176,000	+ 5.0	246,003	+ 78.7	2,201.2	+ 70.2
1974	11,131,000	+ 4.6	297,858	+116.4	2,675.9	+106.9
1975	11,145,000	+ 4.7	334,255	+142.8	2,999.1	+131.9

Crime Rate = Crime Index per 100,000 population.

NOTE: As of January 1, 1973 the theft category was changed to include all theft regardless of dollar value. Therefore the theft offenses from 1965 - 1972 have been adjusted to include all theft (both under \$50, over \$50 and attempts).

Theft offenses increased 142.8 percent over the base year of 1965 as illustrated in Chart 3.2 and the Crime Rate for Theft increased 131.9 percent over the same eleven year period. Specific data by year is presented in the table below the chart showing an eleven year history of theft offenses and rates per 100,000 inhabitants.

THEFT ARRESTS

There were 71,199 persons arrested for theft in 1975 representing an increase of 8.7 percent over 1974. Males accounted for 73.7 percent of the total persons arrested for theft in 1975 and 73.7 percent in 1974 according to Tables 27 and 28. Females made up 26.3 percent in 1975 and 26.3 percent in 1974.

Adults accounted for 42,173 arrests or 59.2 percent in 1975, and Juveniles represented 29,026 or 40.8 percent. Whites made up 49.7 percent of the persons arrested and Blacks or Negroes accounted for 45.3 percent with the remaining arrests distributed among all other races.

PROPERTY STOLEN AND RECOVERED

The crime of theft accounted for \$39,349,836 in stolen property in 1975, representing an increase of 13.4 percent over 1974. Purse snatching decreased from 11,815 incidents in 1974 to 10,520 offenses in 1975. Shoplifting made up 32,291 offenses in 1975 which amounted to \$1,411,525, and 1974 shoplifting accounted for 29,535 offenses and \$125,698 in property stolen. In relation to time when theft offenses occurred, 27.7 percent occurred during the day time, 20.6 percent during the night time and the remaining were unknown. Residences were highest in places where offenses occurred accounting for 34,015 events of 12.0 percent, followed by Business Place/Commercial making up 11.0 percent.

The type property being taken by Day, Night and Unknown with value of property stolen, recovered and destroyed is displayed in Table 30. Currency had the highest value of stolen property at \$3,474,569 followed by bicycles at \$3,009,132. Since more than one item can be stolen in an offense, number of items is presented, rather than offenses.

The following is an analysis of Burglary from Vehicle. It was mentioned before that the offenses collected against this portion of the Burglary Statute are translated into the Theft classification of the National Uniform Crime Reporting Program. Therefore, the offenses reported for Theft also include Burglary from Vehicle. However, all property analysis statistics, such as Table 29 and 30 discussed above only pertain to Theft by State statute. Consequently, the following discussion regarding property involvement in committing Burglary from Vehicle is separate and distinct from the data presented under Theft.

NOTE - (REPORT DOES NOT INCLUDE ATTEMPTS)

BURGLARY FROM VEHICLE

In 1975, law enforcement agencies, other than the City of Chicago, reported 41,921 Burglaries from Vehicle, representing an 40.1 percent increase over 1974. The value of property stolen from motor vehicles in 1975 was \$9,033,814 and in 1974 the property value amounted to \$5,609,686, which indicates an increase of 61.0 percent in 1975 compared to 1974.

Table 31 displays the place associated with the vehicle at which the offense occurred by time of day and percent distribution. Highways, streets, and alleys account for the highest number of offenses, making up 25.9 percent of the total; followed by parking lots which accounted for 22.1 percent of the total offenses.

Table 32 presents detailed information regarding the kind of property stolen from vehicles (autos, trucks, trailers, etc.) and the value of each type property stolen from vehicles (autos, trucks, trailers, etc.). Radios stand out as the highest followed by Tape Decks.

MOTOR VEHICLE THEFT

Motor Vehicle Thefts decreased from 58,638 offenses in 1974 to 56,765 offenses in 1975, representing a decrease of 1,873 offenses or 3.3 percent in 1975 over 1974. The Clearance Rate (cases closed or solved divided by total offenses occurred) for 1974 was 14 percent and in 1975 it was 12.8 percent.

Motor Vehicle Theft accounts for 9.5 percent of the Index Crimes and 10.6 percent of Crimes Against Property. The Crime Rate for Motor Vehicle was 509.3 offenses per 100,000 inhabitants in 1975, indicating a decrease of 3.3 percent over 1974. Motor Vehicle Thefts increased by 40.4 percent in 1975 over 1965 as indicated in Chart 3.3. The Crime Rate is up 34.1 percent in 1975 over 1965. Specific information by year is contained in the table below the chart for your convenience and comparison purposes.

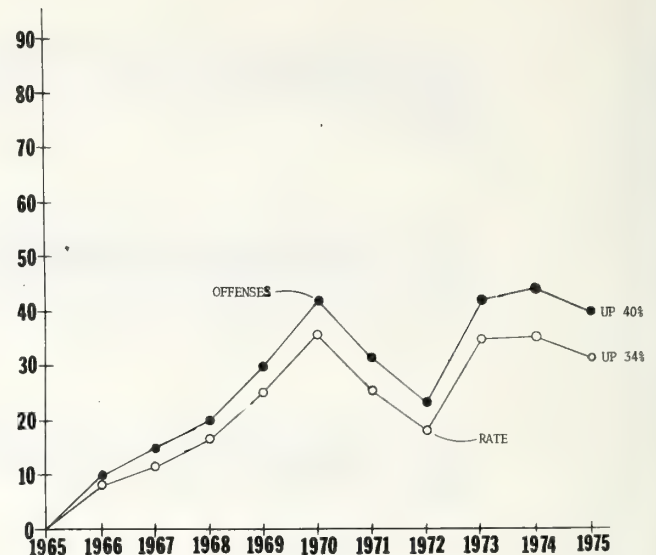

MOTOR VEHICLE THEFT ARRESTS

Persons arrested for Motor Vehicle Theft in 1975 amounted to 6,114 arrests, and in 1974, 5,848 arrests were made. Persons arrested for this offense increased by 4.5 percent. Adults accounted for 3,796, representing 62.1 percent. Whites accounted for 45.8 percent of the arrests in 1975, Blacks or Negroes represented 47.0 percent, the remaining arrests were distributed among the other races. Tables 33 and 34 present the 1975 and 1974 arrest data.

PROPERTY STOLEN AND RECOVERED

The stolen value of vehicles amounted to \$82,344,673. Value recovered amounted to \$49,394,175 in 1975, accounting for 59.9 percent of the total value stolen. Table 35 displays the locations of vehicles

VANDALISM

The term Vandalism is used in the National Program and includes a broad range of malicious behavior, such as; cutting auto tires, drawing obscene pictures on public restroom walls, smashing windows, destroying school records, etc. The Illinois-Uniform Crime Reporting Program includes the following State Statutes quoted from Chapter 38 of the Illinois Revised Statutes:

21-1. Criminal Damage to Property. Any of the following acts shall be a Class A misdemeanor and any act enumerated in sub-section (a) or (f) when the damage to property exceeds \$150 shall be a Class 4 felony;

- (a) Knowingly damages any property of another without his consent; or
- (b) Recklessly by means of fire or explosive damages property of another; or
- (c) Knowingly starts a fire on the land of another without his consent; or
- (d) Knowingly injures a domestic animal of another without his consent; or
- (e) Knowingly deposits on the land or in the building of another, without his consent, any stink bomb or any offensive smelling compound and thereby intends to interfere with the use by another of the land or building.
- (f) Damages any property, other than property described in Sub-section 20-1 (3), with intent to defraud an insurer.

For statistical analysis purposes this Statute is divided into parts, viz., (1) Criminal Damage to Property and (2) Criminal Damage to Vehicle.

21-4. § 21-4. Criminal Damage to State Supported Property. Any of the following acts is a Class A misdemeanor when the damage to property is \$500 or less, and any such act is a Class 4 felony when the damage to property exceeds \$500:

- (a) Knowingly damages any property supported in whole or in part with State funds or Federal funds administered or granted through State agencies without the consent of the State; or
- (b) Knowingly, by means of fire or explosive damages property supported in whole or in part with State funds or Federal funds administered or granted through State agencies; or
- (c) Knowingly starts a fire on property supported in whole or in part with State funds or federal funds administered or granted through State agencies without the consent of the State; or
- (d) Knowingly deposits on land or in a building supported in whole or in part with State funds, or Federal funds administered or granted through State agencies without the consent of the State, any stink bomb or any offensive smelling compound and thereby intends to interfere with the use by another of the land or building.

NOTE - (R E P O R T D O E S N O T I N C L U D E A T T E M P T S)

Arresting persons committing the crime is as difficult as apprehending a thief or burglar. The clearance rate (offenses or cases cleared divided by total offenses that occurred) was 12.1 percent in 1975.

VANDALISM ARRESTS

The number of persons arrested for vandalism in 1975 was 27,828 and in 1974 there were 16,200 representing an increase of 71.8 percent in 1975 over 1974. Males accounted for most arrests made in 1975, representing 95.6 percent of the total persons arrested, and in 1974, males represented 95.6 percent of the total arrests that year. Adults accounted for 8,501 persons arrested for vandalism in 1975, making up 30.5 percent, whereas juveniles represented 69.5 percent. Tables 37 and 38 show the distribution of persons arrested in 1975 and 1974 by sex, race, juvenile and adult age groups for comparison purposes.

Offenses that occur in accordance with these two Statutes is equivalent to the National Program's Vandalism. It should be understood that the following statistics are not part of the Crime Index offenses, and are presented because of general interest. The City of Chicago does not report these

offenses, but it does report arrests in the general Vandalism category but not by Statute.

In 1975, 96,911 offenses of Vandalism were reported, representing a 12.3 percent decrease over 1974. The property value destroyed increased from \$6,715,194 in 1974 to \$8,452,871 representing an 25.9 percent increase in 1975 over 1974. Property is destroyed in other property crimes such as burglary, theft, auto theft, arson, etc., however, these offenses are specific for criminal damage to property which is mostly malicious and intentional.

Table 36 displays places where vandalism takes place by Day, Night and Unknown time. The percent distribution shows that Residences were attacked 29.6 percent of the times when criminal damage to property occurred, followed by Highways, Streets and Alleys.

PROPERTY STOLEN AND RECOVERED SUMMARY

Table 36A and 36B represent a summary of Homicide through Vandalism Property Stolen, Recovered and Destroyed by Property Place Time and Value and Property Type Time and Value respectively.

**CRIME INDEX
1975/1974**

CRIME INDEX

1975/1974

In this section of the report, the Crime Index is displayed for all law enforcement agencies, showing 1975 compared to 1974. The first table, Table 39, is in alphabetical order by county and law enforcement jurisdiction within the county. Some of the agencies have a numeric indicator preceding the year. The meaning of the numeric indicators is located at the bottom of each page. The indicator, number 1—One Or More Months Data Missing, means that the indicated agency did not submit one or more of the required monthly reports for one reason or another. Number 2, No Index Crimes, means that the agency submitted all reports but didn't experience an Index Crime throughout the year. Number 3—No Return From Agency, means that the agency did not submit any of the required reports for the year indicated. Numeric indicator number 4—Reported Thru Other Agency, means that the agency submitted incidents of crime primarily through the Sheriff Office. Agencies that report in this manner are very small part-time agencies.

It was mentioned in the Introduction that there are many social factors that are related to crime. In making community comparisons these contributing factors must be considered in addition to the community's residential population which is used to calculate the Crime Rate. Communities like Bedford Park and McCook in Cook County have very small populations but have a very large moving population because they are manufacturing areas.

Likewise, Rosemont in Cook County is located adjacent to O'Hare Airport and has a relatively large transient population due to the number of motels within the jurisdiction. As a consequence those large moving populations attract criminal behavior that occurs within these small jurisdictions, and therefore must be reported by each of the law enforcement agencies. The Crime Rate calculation does not compensate for a moving population and when one reads Index material it appears that the crimes are committed by the residents of the community which is not necessarily the case. In conclusion, caution should be exercised when reviewing and using these data.

The last page of the Crime Index shown in Table 39, contains three totals; viz., State Totals, Sheriffs (not county) and Police Departments. The State Total indicates a 5.5 percent increase in Index Crimes in 1975 compared to 1974. The Sheriffs total shows a 11.1 percent increase in crime and Police Departments accounted for a 4.8 percent increase in crime in 1975 over 1974. The 11.1 percent increase indicated by the Sheriffs total is not necessarily indicative of an increase in Rural Crime to this extent, as Rural areas are defined by the U.S. Bureau of Census which will be discussed shortly in this section. Table 40 displays annual 1975 statistics reported by Universities and Colleges, Table 41 displays Railroads, Table 42 displays Park Districts, Table 43 displays data reported by the reporting Hospitals and Table 44 displays Other Agencies.

Standard Metropolitan Statistical Areas

SOURCE: U.S. BUREAU OF THE CENSUS

FIGURE 2

STANDARD METROPOLITAN STATISTICAL AREAS (SMSA)

Standard Metropolitan Statistical Areas (SMSA's) are defined by the U.S. Bureau of the Census as follows:

A Standard Metropolitan Statistical Area (SMSA) includes a city of more than 50,000 and the county in which the city is located plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes.

A core city is within an SMSA and has a population of more than 50,000 or more inhabitants. In certain SMSA's, there are "twin central cities" that have a combined population of 50,000 or more inhabitants and together are considered a core city.

The suburban area consists of cities and towns with 50,000 or less population including the counties which are within the SMSA. The county sheriff's office is included in the suburban area.

The rural area is the unincorporated portion of a county outside of the SMSA's. For Illinois-Uniform Crime Reporting purposes, the rural area is composed of the sheriff's jurisdiction outside of the SMSA's.

The other cities are urban places outside of the SMSA's. For Illinois-Uniform Crime Reporting purposes, these are cities and towns outside the SMSA's, surrounded by rural areas that are not under the jurisdiction of the county sheriff's offices.

Figure 2 is a map of Illinois with the SMSA's outlined with heavy lines. Two of the SMSA's overlap with Iowa and Missouri. Areas outside of the State that are included in an SMSA are deleted from the statistics about to be presented. Kankakee County has been added as an SMSA for 1975. The statistics from the county have been included within the reporting period (1975).

SMSA SUMMARY

Five crime categories making up the Crime Index decreased in 1975 compared to 1974. Table 45 represents summary statistics for 1975 versus 1974 for all SMSA's in Illinois as defined above. The SMSA estimated population was 9,128,113 in 1975 accounting for 81.9 percent of the State population and 91.6 percent of the State's Crime Index for 1975. Theft represented the highest percent changes with 12 percent increase in 1975 over 1974, followed by burglary up 2.8 percent. The other five index crimes were down.

SMSA CORE CITY SUMMARY

Core Cities are included in SMSA's and account

for 4,813,108 inhabitants or 52.7 percent of the total SMSA population and 43.2 percent of the State population. Core Cities also accounted for 66.1 percent of the Total SMSA Index Crimes and 60.6 percent of the State Index Crimes in 1975. Core Cities accounted for 86.4 percent of the Murders and Voluntary Manslaughters committed within SMSA's and represented 82.6 percent of the total Murders and Voluntary Manslaughters that occurred in the State in 1975. Particularly, noteworthy are the figures on Robbery. The Core cities accounted for 88.5 percent of the Robberies within SMSA's and 86.4 percent of the total Robberies that occurred in the State in 1975. Table 46 provides other informative statistics in contrast with Table 42. An analysis of the suburbs will shed more light on this subject.

SMSA SUBURBAN SUMMARY

Suburban areas like Core Cities fall within the SMSA. The suburbs are bounded by the SMSA lines by definition and outside the Core Cities. Total Suburban areas accounted for 4,315,005 estimated inhabitants in 1975, and represented 38.7 percent of the total State population. The Crime Index increased 14.1 percent in the suburbs in 1975 with Thefts representing the highest increase followed by Rape, Burglary, Robbery, Motor Vehicle Thefts in that order, Murder and Aggravated Assault and Battery decreased. Table 47 presents summary comparison statistics for 1975 and 1974.

RURAL AREA SUMMARY

Rural Areas had a 7.1 percent increase in the Crime Index in 1975 which was attributed by the relatively large increase in Murder, Robbery, Thefts and Motor Vehicle Thefts as indicated in Table 48. All rural index crimes showed an increase, except assault showed a decrease. Rural Areas accounted for 8.9 percent of the Illinois inhabitants and 2.5 percent of the total Index Crimes. To keep crime statistics in perspective, the index crimes per 100,000 inhabitants or the Crime Rate was 1493.9 for Rural Areas in 1975, 4517.3 for Suburban Areas and 7290.6 for Core Cities.

OTHER CITIES SUMMARY

The Other Cities area consists of 196 cities outside of the SMSA's and within the Rural Areas. These cities account for 9.2 percent of the State's inhabitants and 5.9 percent of the Index Crime for 1975. Even though the Other Cities population is comparable to the Rural Areas, they experienced an increase in crime in most Crime Index categories and consequently the Crime Rate is more than twice the Rural Area. Murder ranks highest in percent change, followed by Robbery.

Table 45
1975-1974 CRIME INDEX COMPARISON—

The OTHER CITIES are urban placed outside of the SMSAs. For Uniform Crime Reporting purposes, these are cities or towns outside of the SMSAs that are not under the jurisdiction of the county Sheriff Offices.

ILLINOIS—UNIFORM CRIME REPORTS

1975 OFFENSE SUMMARY

Comprehensive crime statistical data is presented in this part of Crime in Illinois. Tables 50 and 51 represent offense data summarized to the State level. The first column contains the four digit offense code structure related to the Illinois Revised Statutes. The second column entitled Offense Classification, contains the descriptors of each offense code. If some of the descriptors seem to be over-abbreviated, refer to the Introduction where the offense code structure is completely typed with Statute reference numbers. The third column is Offenses Known to Police. The fourth column, Unfounded with sub-columns, number and % means that after investigation of offenses reported to the police, it was determined that a crime didn't occur. The percent column is calculated by dividing the number of unfounded offenses by the offenses known to the police. It is of interest to law enforcement agencies to maintain cognizance of the number of calls for service that come in and actually didn't occur. The fifth column — Referred to Responsible Jurisdiction — means that a jurisdiction was called about an incident, but it was found that the incident location is beyond their jurisdiction, and hence the call is referred to the agency having jurisdiction. Column six — Offenses actually occurred is calculated by adding columns four and five (Unfounded and Referred to Other Jurisdiction) and subtracting this quantity from the offenses known to the Police. These are the offenses that the police pursued with investigation and solution, and are used in the Crime Index.

The next group of columns is headed — Offenses Cleared and contains four major columns and eight sub-columns. The first four sub-columns present statistics relating to exceptional clearances. A case is cleared exceptionally when:

1. The investigation has definitely established the identity of the offender, and
2. There is sufficient information to support and arrest, charge, and turn over to the court for prosecution, and
3. The agency knows the exact location of the offender so that he could be taken into custody, and
4. There is some reason outside of police control that stops the police from arresting, charging and prosecuting the offender.

Some examples of exceptional clearances are:

1. Suicide of the offender (the person responsible is dead).
2. Double murder (two persons kill each other).
3. Deathbed confession (the person responsible dies after making a confession).

4. Offender killed by police or citizen.
5. Confession by offender already in custody or serving sentence.
6. An offender prosecuted in another city for a different offense by State or local authorities or prosecuted in another city or State by the Federal Government for an offense which may be the same.
7. Extradition is denied.
8. The victim refuses to cooperate in the prosecution.
9. For some reason outside of the agency's control, an offender is prosecuted for a less serious charge than that for which you arrested him.
10. The handling of a juvenile offender either orally or by written notice to parents in instances involving minor offenses such as petty larceny. No referral is made to juvenile court as a matter of publicly accepted policy.

It is recognized that departmental policy in various police agencies permit the discontinuance of investigation and closing administratively cases in which all investigation has been completed. The administrative closing of a case or the "clearing" of it by departmental policy does not permit the offense to be cleared exceptionally. The recovery of property is not reason to clear a case for UCR purposes. The clearance of a case for I-UCR purposes should have no affect on whether or not the agency's internal policies as to "closing" a case or discontinuing active investigation on a case.

The column — Failed to File a Complaint is of particular interest to law enforcement agencies and is therefore separate from all other reasons for exceptional clearances. Failing to File a Complaint means that the victim refuses to cooperate with the prosecution. All other reasons for exceptionally clearing a case are included in the "other" column.

Offenses cleared by arrest is self-explanatory. Each of the clearance columns is divided into adult and juvenile. The last column of the Offense Summary gives the total clearances (total of exceptionally cleared and cleared by arrest). The clearance rate as defined as:

$$\text{Clearance Rate} = \frac{\text{Total Offenses Cleared}}{\text{Actual Offenses Occurred}} \times 100$$

This report is produced for each reporting agency and is summarized to the county and state levels. The Crime Index presented in the previous section for each agency is developed from this basic report. For example, Attempted Murder (0121,

0122, 0123 and 0124), Aggravated Battery (0410, 0420, 0430 and 0440) and Aggravated Assault (0510, 0520, 0530, and 0540), added together makes up the Aggravated Assault category of the Crime Index of the National Program. The data is kept separate by State Statute in the I-UCR Program because the Statutes describe significantly different criminal behavior and are handled differently by the police and the prosecution as well as all other criminal justice agencies.

At the end of the tables are five different totals that must be understood. The Grand Total means

the total of all activity. The *Total means the total of incidents not necessarily included in National crime counts and are therefore subtracted for volume comparisons only with the National Program regarding all criminal activity. The Sub-Total (less*) is the total that should be used for comparison purposes. In addition, the Total Attempt to commit a crime are provided for information regarding incompleting crimes, followed by the Adjusted Total, which represents all activity less* and Attempts. We will use the Sub-Total (less*) for the 1975 versus 1974 comparison of crime trends referring to Tables 50 and 51.

AGE, SEX AND RACE OF PERSONS ARRESTED AND HELD FOR PROSECUTION OR RELEASED

The total number of persons arrested in 1974 amounted to 553,509 and in 1975, 672,496 persons were arrested. An increase of 118,987 arrests in 1975 over 1974. Males represented 84.9 percent of the persons arrested in 1975 and females 15.1 percent. In 1974 males accounted for 85.0 percent, which is approximately the same as 1975. Juveniles accounted for 24.5 percent of the arrests in 1975 and adults 75.5 percent. In 1974, juveniles represented 22.7 percent and adults 77.3 percent, again indicating only a slight difference in 1975 versus 1974.

Based on the U.S. Bureau of Census figures for 1970, the Illinois population was 11,113,976. In 1970, the Bureau reported that Whites accounted for 86.4 percent of the population, Negroes represented 12.8 percent and all other races accounted for the remaining 0.8 percent. Using these same percentages for the 1975 estimated population of 11,145,000, Whites accounted for 9,629,280 Blacks or Negroes 1,426,560 and all other races 89,160. The Arrest Rate is defined the same as the Crime Rate as follows:

$$\text{ARREST RATE} = \frac{\text{TOTAL ARRESTS} \times 100,000}{\text{POPULATION}}$$

Using this formula, the Arrest Rate for Illinois in 1975 was,

$$\text{ARREST RATE} = \frac{672496 \times 100,000}{11,145,000} = 6,034.1 \text{ per one hundred thousand}$$

inhabitants, and in 1974 the Arrest Rate was 4,972.7, representing an increase of 21.3 percent.

Considering the White inhabitants only, the Arrest Rate for 1975 was:

$$\text{ARREST RATE} = \frac{371918 \times 100,000}{9,629,280} = 3,862.4 \text{ per one hundred thousand}$$

White inhabitants. The Arrest Rate for Black or Negroes in 1975 was,

$$\text{ARREST RATE} = \frac{258390 \times 100,000}{1,426,560} = 18,112.8 \text{ per one hundred thousand}$$

Black or Negro inhabitants and the Arrest Rate for all other races was 47,317.2 per one hundred thousand inhabitants.

LAW ENFORCEMENT AGENCY INFORMATION

LAW ENFORCEMENT AGENCY INFORMATION

This section of Crime In Illinois contains information about law enforcement agencies, divided into three sections; Law Enforcement Officers Killed or Assaulted/Battered, Law Enforcement Employment Information and Other Law Enforcement Services.

LAW ENFORCEMENT OFFICERS KILLED—1975

There were five law enforcement officers killed in Illinois in 1975. One Chicago police officer was killed by a rifle, another Chicago police officer was killed by a handgun, one Alorton patrolman was killed by a handgun, one patrolman with the East St. Louis Police Department was shot and killed by a rifle and one Sangamon County Sheriff's Department deputy was killed by a handgun. A summary of each case was provided by the FBI-UCR Group's publication, Law Enforcement Officers Killed—1975 and are presented below.

FEBRUARY

While responding to a domestic altercation a 27 year old male Negro patrolman with the Chicago Police Department was fatally shot and killed with a .38 caliber handgun.

MARCH

A deputy with the Sangamon County, Illinois, Sheriff's Department for two years radioed the dispatcher that he was assisting a motorist and requested a tow truck at the scene. Shortly thereafter, the dispatcher attempted to recontact the deputy and received no response. The deputy, a white male 36 years of age, was found dead behind the steering wheel of his patrol vehicle. He had been shot in the head with a .38 or .357 caliber handgun. No subjects were apprehended at the time of the incident.

MAY

While writing a ticket for an unoccupied, illegally parked vehicle, a patrolman with the Chicago, Illinois Police Department was shot and killed in an unprovoked attack. The patrolman, a white male 31 years of age, was standing beside the parked vehicle when he was shot in the head with a .22 caliber rifle. Investigation indicated that the subject allegedly shot the patrolman from a window of a nearby apartment building. The subject, a Negro male 17 years of age, was subsequently

apprehended. The patrolman had been a law enforcement officer for over two years.

A five-year veteran patrolman with the East St. Louis, Illinois, Police Department was slain after responding as a backup unit to a domestic disturbance call at an apartment building. The patrolman, a Negro male 30 years of age, arrived at the scene. While exiting his patrol vehicle, the patrolman was fatally wounded in the chest with a .22 caliber rifle. Tear gas was utilized. After a two-hour gun battle, the subject, a Negro male 32 years of age; was taken into custody.

JUNE

After responding to a domestic disturbance call at a local residence, a patrolman with four years of law enforcement service of the Alorton, Illinois, Police Department was shot and killed. The patrolman, a white male 41 years of age, and his partner arrived at the scene. The subject's uncle informed the officers that the subject had struck him for no apparent reason. The officers approached the front porch of the residence where the subject was sitting. The subject, a Negro male 30 years of age, attempted to strike his uncle. The patrolman's partner attempted to restrain the subject and drew his .38 caliber service weapon. The subject began struggling with the patrolman's partner. The patrolman attempted to handcuff the subject. During the struggle, the partner's service weapon discharged striking the patrolman in the chest. The subject was taken into custody at the scene by the patrolman's partner.

LAW ENFORCEMENT OFFICERS ASSAULTED/BATTERED

Table 54 is a summary of law enforcement officers killed or assaulted or battered. There are three major divisions in this table viz., (1) Type of Weapons Used, (2) Type of Assignment, and (3) Police Assaults/Batteries Cleared.

The type of weapon refers to the subject's use of a weapon to assault or batter a police officer. The type of assignment means deployment technique for patrol and answering calls. For example one column is headed "2-man vehicle" — 2 men were assigned to a vehicle and were assaulted or battered 1,349 times with this deployment technique. When a "1-man vehicle" is deployed with an assist from another "1-man vehicle" the assaults and batteries amount to 391 incidents. The

last column of the table displays "cases cleared by arrest" by type of activity. The table indicates that 2,357 cases were cleared by arrest out of 2,587 (first column total) cases that occurred or the clearance rate was 91.1 percent.

Item 15, "Time of Assault" is divided into A.M. and P.M. Note that between the hours of 1001-

1200 P.M. through 1201-0200 A.M. represents 793 incidents out of 2,587 or 30.7 percent of the incidents that occurred in this 4 hour span out of the 24 hour day. The table also shows that the highest frequency of occurrence in the Type Weapons area was when answering Disturbance Calls followed by Attempting Other Arrests, Handling Prisoners, and Traffic.

LAW ENFORCEMENT EMPLOYMENT INFORMATION

The total law enforcement personnel as of October, 1975 amounted to 31,959 employees.

Part-time employees accounted for 2,657 employees or 8.3 percent. Civilians represented 4,348 employees or 13.6 percent of the total. Full-time employees (sworn officers) amounted to 24,954 employees or 78.1 percent of the total employees on the payroll in October of 1975.

The percent of Civilian employees relative to Total Employees for the police was 16.9 percent. For the sheriffs, the percent Civilian employees represented 17.8.

The number of employees per 1000 inhabitants for the police was 3.1. The National average was 2.5 police officers per 1000 inhabitants. Sheriffs had 1.9 employees per 1000 inhabitants. Law enforcement employees per 1000 inhabitants should not be used as it relates to the Index Crimes, because other crimes and many services performed by the typical police or sheriff's office amounts to over 80 percent of their workload which usually remains unpublished. Again, each community should consider all the factors related to causes of crime and determine the role of the department relative to crime and services that are required.

Calculation of employees per 1000 inhabitants is accomplished by using this formula:

$$\text{EMPLOYMENT RATE} = \frac{\text{NUMBER OF EMPLOYEES} \times 1000}{\text{YOUR JURISDICTIONAL POPULATION}}$$

EXAMPLE:

Your department has 60 employees. What is the manpower ration per 1000 inhabitants when your current population is 51,000 inhabitants?

$$\text{ER} = \frac{60 \times 1000}{51,000} = 1.76 \text{ or } 1.8/1000 \text{ inhabitants}$$

If you want the full-time sworn officers per 1000 inhabitants use the same formula and use the number of full-time officers that you have.

Specific law enforcement information is included in the following tables. Table 55 is a listing of police departments ranked by population. Table 56 is an alphabetical listing of Sheriff's Offices and related employment information. Following Table 56 is a list of Colleges and Universities that are on the I-UCR Program. Table 58 shows Railroad agencies that are on the I-UCR Program. Table 59 shows Park Districts, Table 60 shows Hospitals, and Table 61 shows Other Law Enforcement Agencies.
